Hello,

I am a professional designer with extensive experience in communication and advertising, and I am excited to apply for this opportunity. Throughout my career, I have proven my ability to adapt and integrate into teams managing multiple complex projects, bringing expertise in design, video, and content creation.

My background is multidisciplinary, combining the technical precision of Architecture and Urbanism with the creative and social engagement of the Arts. This foundation allows me to develop innovative solutions between digital prototyping and physical production. My technical toolkit is diverse, ranging from advanced AI workflows using ComfyUI and 3D modeling in Blender to traditional mediums like printmaking and painting.

In my recent roles as a Senior Designer and Manager, I have overseen the full lifecycle of multimedia advertising campaigns, including text, social media video, and web design. I am particularly adept at tailoring visual solutions for diverse sectors, including real estate, automotive, and healthcare while maintaining strong relationships with client needs.

I am eager to apply my skills in visual development and design to your project.

Thank you for your time and consideration.
